---

## Summary

Computational and Data Sciences graduate with experience in ETL pipelines, database design, and analytics automation. Skilled in Python, SQL, and BI tools for transforming data into clear business insights. Strong focus on important metrics, business decisions, and stakeholder communication.

## Experience

---

### Data Analyst and Visualization Intern - Foundation for Essential Needs

October 2025 – January 2026, Remote

Managed and validated 250,000+ records from AWS databases to ensure accurate reporting for Minnesota food shelves. Built and maintained Tableau dashboards to track food sourcing and operations, enabling data-driven decisions. Produced Strategic Food Sourcing Reports and consultation materials that guided leaders in optimizing resources and community impact. Documented workflows and Tableau best practices, improving team efficiency. Supported consultations with food shelf staff, providing business insights for cost-effective operations.

### Volunteer Data Analyst - Florida Youth at Risk

November 2025 – Current, Remote

Track and analyze campaign performance to support workforce development programs for youth. Set up Google Analytics 4 tracking, create custom dashboards in Google Data Studio, and monitor key metrics such as cost-per-acquisition, return on ad spend, and donor lifetime value. Produce weekly performance reports, deliver monthly insights, and provide quarterly strategy recommendations.

## Core Skills

---

Programming:	SQL, Python (Pandas, NumPy, SciPy, Matplotlib, Seaborn)
Databases:	MySQL, PostgreSQL, AWS, Snowflake
BI & Visualization Tools:	Power BI, Tableau, MS Excel, Google Analytics

## Education

---

George Mason University - Fairfax, Virginia | Bachelor of Science (B.S.)

Computational and Data Sciences - (2021-2025)

GPA: 3.72

## Certification

---

Microsoft | Power BI Data Analyst Associate (Exam PL-300) – [August 2025]
